Special Mention by Autodesk Technology Centers

AUTODESK
Technology Centers

The **Autodesk Technology Centers** will recognize excellence in the 3DPC by providing the opportunity to join the **Autodesk Technology Centers Oversight Network** - a global community of industry leaders, entrepreneurs, and researchers building future-focused technology in design, AEC, manufacturing, and more that is destined to change our world.

Excellence will be recognized in the form of a **special mention** - given to three entries in the following categories:

The „WHAT“
The „HOW“
The „WHY“

The **Autodesk Technology Centers** catalyze new possibilities for making through the power of connection. They bring together a global network of innovation leaders, data-enabled fabrication workshops, curated experiences, and forward-thinking ideas to empower innovators in achieving the new possible, together.

Participating in the **Autodesk Technology Centers Oversight Network** offers:

- Global network of innovators
- Subject matter experts and design tools
- Online events and virtual training
- Opportunities to test solutions and demonstrate work
