# Best industrial project 3 month on-demand manufacturing software package

**3YOURMIND** is an on-demand manufacturing software that empowers companies to identify and produce parts when needed. OEMs, operating companies, and contract manufacturers can create digital inventories of qualified parts to reduce costs, shorten production lead times, and secure more efficient and agile operations.

This software package includes:

- A 3-month access to the **3YOURMIND** software
- Unlimited user access
- Part Assessment & Business Case calculation of 5.000 parts
- Full capabilities of 2D digitization of drawings
- Qualification management
- Digital inventory
- Unlimited supplier management
- Professional analytics package
- Premium security
