Sustainability benefit with CASTOR Analysis

CASTOR awards the „Sustainability benefit“- award.
The winner can take advantage of the **CASTOR** Analysis about their part’s sustainability benefit.

The team of **CASTOR** will be happy to provide the winner access to **CASTOR** cloud-version/web based.
With: 1.5 hours, personal remote training, access to the software for 30 days and analysis of up to 100 parts.

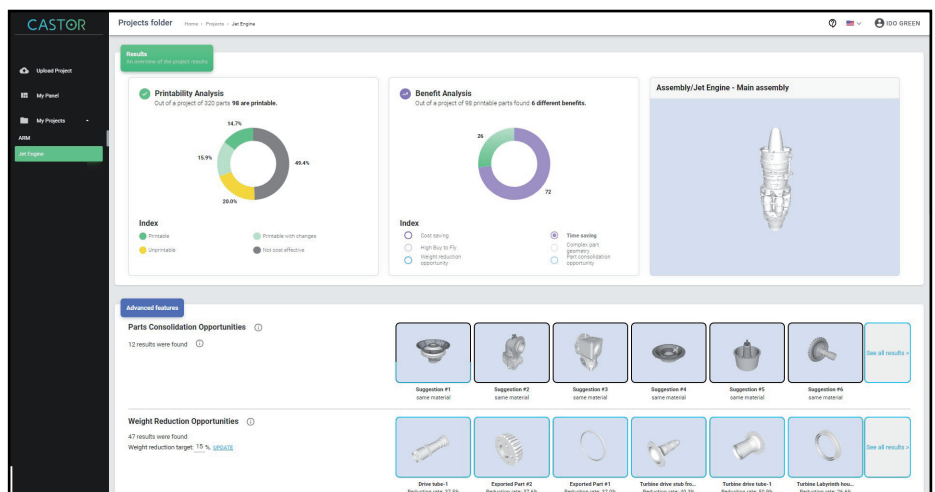

About **CASTOR**

Their mission is optimizing manufacturing.
CASTOR, the Israeli company, is specialised in developing 3D printing software and wants to help manufacturers save time and money by unlocking the benefits of industrial 3D printing.

How?

CASTOR enables manufacturers to reduce costs and utilize AM technology, by providing technical analysis and cost-saving advice for a full machine design – to automatically identify suitable parts for Additive Manufacturing.
